

U.S. Army Medical Command Awards TIAG® Prime Knowledge Management Contract for Warrior Care and Transition

RESTON, Va., September 13, 2019 — **TIAG®** recently won a new three-year prime contract supporting **U.S. Army Medical Command (MEDCOM) Deputy Chief of Staff for Warrior Care and Transition** (DCS, WCT). Creating and maintaining WCT's Knowledge Management Intranet/Extranet Portal (KMIEP), team TIAG will deliver expertise to manage this highly effective collaboration tool for the organization.

Maximizing Microsoft SharePoint functionality and records management best practices to organize and host organizational data, the team will apply a more effective approach in building SharePoint site collections to ensure navigational ease, content management compliance and records management principles, in addition to boosting functionality and streamlining business processes.

“This innovative approach enhances TIAG's reputation and legacy as an innovative health information technology company providing strategic, transformational solutions to private industry and across the Department of Defense, and this win evidences that the Army truly values TIAG as a technical partner — by virtue of the outstanding works delivered over the years by our team of highly qualified, certified knowledge managers, security engineers, designers, trainers and other IT pros,” says TIAG Director [Jon Ragan](#).

Ragan notes that since 2012, team TIAG's work on other projects for WCT has significantly reduced paperwork, streamlined and automated business processes, and brought WCT into compliance with records management principles. It's also eased the online training process and made WCT's SharePoint portal a model for other organizations.

“By creating a product that greatly benefits WCT and Army Medicine as a whole, TIAG has succeeded in bringing great attention to a product that's now highly desired in other organizations across the Army enterprise,” says TIAG Managing Principal and Chief Strategy Officer [Umang Modi](#).

About U.S. Army Medical Command (MEDCOM) Deputy Chief of Staff for Warrior Care and Transition (DCS, WCT) | The mission of the MEDCOM DCS, WCT is to develop, coordinate and integrate the Army's Warrior Care and Transition Program for wounded, ill and injured soldiers, veterans and their families or caregivers to promote success in the force or civilian life. WCT serves an essential role, not only in managing the care and recovery of soldiers evacuated from theater, but also those preparing to deploy and those who have returned from combat that require complex care management to cope with the effects of war and multiple deployments. WCT works to ensure everything possible is done to enable soldiers to return to duty. WCT also plays an important role in ensuring reserve component soldiers receive the care they require before and after deployment to remain mission ready.
